

NO Monke-ing Around!

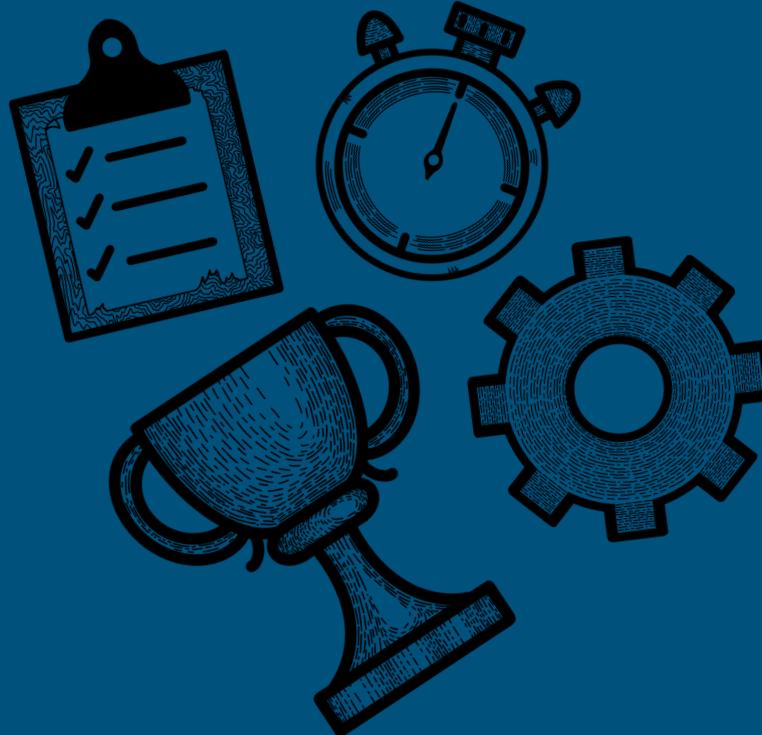

A Presentation by AndroidMonke
Productivity

What is *NO Monke-ing Around!* (NMA!) ?

- A productivity application for Android Devices
- Tracks “time on-task” for a user’s given activity
- Grows trees the more the user focuses
- 5 main features...

Main Features

1. Focus timer
2. Tree growth
3. To-Do Tracking
4. Leaderboards
5. Event Import and Data Export

Focus Timer

- Displayed on the Home Page
- During this time, the user will not be able to leave the page without their tree dying
- Encouraging messages will be displayed for the user

Tree Growth

The tree will have five stages of life occurring at different percentages of the focus timer

0% - 10% = sapling

10% - 25% = adolescent

25% - 45% = full-grown

35% - 75% = old

75% - 100% = ancient

There will also be five different trees depending on the amount of time the user has spent focusing in total:

0 to 2 hours = Oak tree

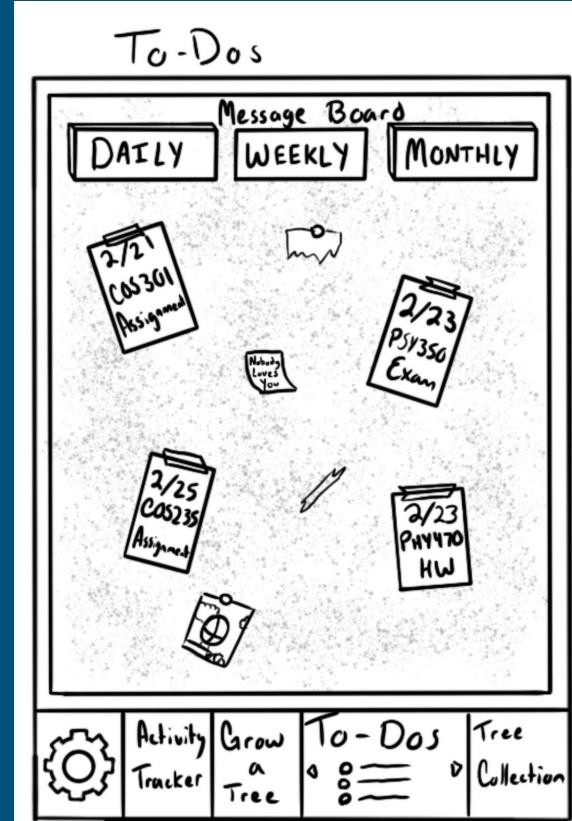

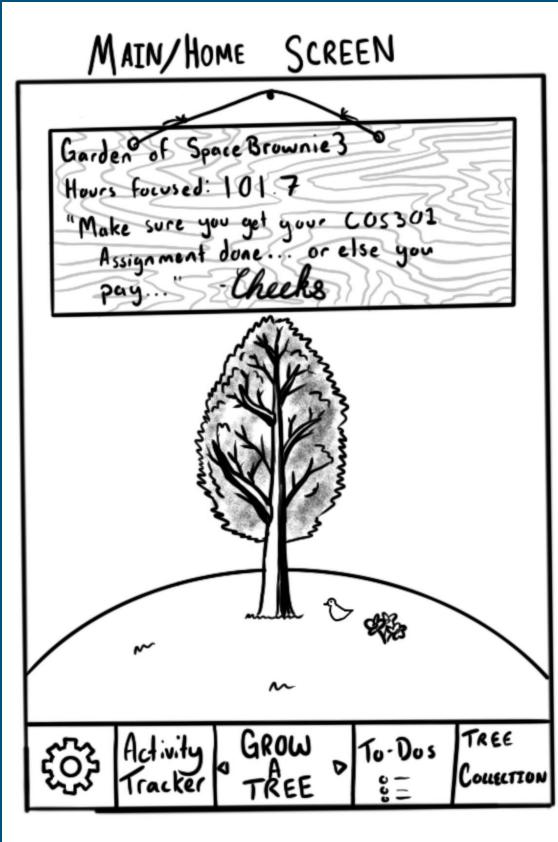

2 -to5 hours = Palmetto tree

5 to 10 hours = Pine tree

10 to 50 hours = Redwood tree

50+ = Banana tree

Tree and To-Do Screen Mock-Up

To-Do Tracker

- User can enter in tasks to be done and due dates
- User can enter in events to be done as well, which will be within a calendar section of the application
- There will be a daily, weekly, and monthly view for the to-dos
- An eventual goal is to be able to propagate the to-dos onto a message board with some kind of algorithm

Leaderboards

- There will be leaderboard functionality
- The leaderboards will be reset every fortnight
- There will be powerups to freeze your friend's (or your enemy's) focus time

Leaderboard			
Place	Name	Hours	Fav Tree
1	brinnerdt	1002.0	Banana
2	ItsShane	1001.8	Palmetto
3	Armadillq	1000.7	Banana
4	DeathsGrasp	998.2	Oak
5	Pingu	956.0	Redwood

Activity and To-Do Mock-up

ACTIVITY TRACKER

Last two weeks: 12.3 hours
Placement: #10023
Focus Goal: 20 hr per week
Connect to Google

Leaderboard

Place	Name	Hours	Fav Tree
1	brinnerdt	1002.0	Banana
2	JtsShone	1001.8	Palmetto
3	Armadilliq	1000.7	Banana
4	DeathGrasp	998.2	Oak
5	Pingu	956.0	Redwood

Activity Tracker & Leaderboards GROW A TREE To-Do Tree Collection

* If user is signed into Google "Connect to Google" is replaced by "Connected to [name]"
ex: Connected to mbrownie373 prefix of email

Tree Collection

Ten Most Recent Trees:

Species	Time	Species	Time
1 Oak	2.3	6 Oak	6
2 Oak	0.75	7 Oak	3
3 Palmetto	2	8 Oak	.25
4 Redwood	5	9 Pine	1.2
5 Pine	2.0	10 Oak	3.1

GROW A TREE To-Dos Tree Collection

Event Import and Data Export

- NMA! will be able to connect to the user's google account
 - the user will then be able to import and export events from their google calendar
- Focus times will be able to be exported for the use of parents, or teachers, or psychologists

Demo Time!

I will now be handing the reins over to Declan to do a demo of NMA!
